Bobby Janecka
Commissioner
Texas Commission on Environmental Quality
P.O. Box 13087
Austin, TX 78711

Dear Commissioner Janecka:

As we work to address water management in Cameron County, it is imperative that we continue to monitor and project water levels from all potential sources, including Mexico.

Based on the IBWC's website, the Cuchilla dam and Marte Gomez dam are full while the Chihuahua dams have received very little rain over this current hurricane season. I understand that there is significant water in the San Juan Basin. In past years, water has been received from the San Juan Basin. Has IBWC explored the possibility of receiving water from the San Juan Basin?

If we can be of any assistance on this matter, please do not hesitate to contact us.

Sincerely,

Eddie Treviño, Jr.
County Judge
