

City of Baytown
Public Works Department
SEP No. 2018-03

Project Description

Respondent shall contribute the SEP Offset Amount to the Third-Party Administrator named above, **City of Baytown**, for the *Residential Sewer Line Repair and Replacement Program* (the "Project"). The contribution will be used in accordance with the Supplemental Environmental Project between the Third-Party Administrator and the TCEQ, which details the terms and conditions of the Project. Specifically, the SEP Offset Amount will be used to repair or replace eligible homeowners' private sewer lines, thereby reducing inflow and infiltration (I&I) of storm water into Third-Party Administrator's wastewater system.

Environmental Benefit

The City of Baytown had 164 Sanitary Sewer Overflows (SSOs) in 2017, which included 3,406,735 gallons of untreated wastewater polluting waterways. It is a common industry estimate that 50% of I&I originates from private sewer laterals. This program could effectively address over 1.5 million gallons of untreated wastewater that pollutes Texas waterways each year.

Eligible Areas and Counties

This project may receive contributions from the following:

Fort Bend, Grimes, Harris, Liberty, Montgomery, San Jacinto, Walker, and Waller Counties

Minimum Contribution Amount

\$500

Total Project Budget

\$19,959,000
