Plan Review Team (PRT)

The team is accepting electronic submittals along with hard copy submittals when customers are able. Submittals may be sent via email to PTRS@tceq.texas.gov

Number of plans and specifications submittals processed by the Plan Review Team in October to December 2020: 667. The team is pleased to welcome Jose Castillo who started on May 2, 2020.

Drinking Water Infrastructure Needs Survey: The survey is very important for water systems funding as the sum of the state needs are used to determine the Drinking Water State Revolving Fund (DWSRF) allotment Texas will receive. The DWSRF has become a major funding source of water system projects in Texas and careful completion of the survey benefits many Texans. The survey includes all systems with a population greater than 100,000 and a sampling of systems with populations less than 100,000. Data collection began January 1, 2021. TCEQ appreciates PWSs working with staff and its contractor to accomplish this important task

Technical Review and Oversight Team (TROT)

Number of Exception and Alternative Capacity Requirement requests processed by the Technical Review and Oversight Team during October 2020 – December 2020: 413.

Response and Capacity Development Team (RCDT)

Number of free on-site Financial, Managerial, and Technical (FMT) Assistance assignments made for public water systems by the Response and Capacity Development Team October – December 2020: 178. This number excludes assignments made for wastewater systems and contractor training events.

Capacity Development:

- Do you need funding or other assistance? The Texas Water Infrastructure Coordination Committee (TWICC) is an umbrella organization designed to help water and wastewater systems find funding and other assistance. TWICC is made up of state and federal funding, regulatory and assistance agencies including the United States Department of Agriculture (USDA), Texas Rural Water Association (TRWA), Texas Water Development Board (TWDB), Texas Department of Agriculture (TDA), Federal Emergency Management Agency (FEMA), General Land Office (GLO), Texas American Water Works Association (TAWWA) and Communities Unlimited. The last TWICC meeting was hosted remotely by PUC on November 18, 2020. The next TWICC meeting is being hosted remotely by Communities Unlimited on January 20, 2021. If you are interested in talking to TWICC members about potential projects, funding and other assistance you can contact Dorothy Young at dorothy.young@tceq.texas.gov. Information on TWICC members, funding sources and other resource links are available at www.twicc.org.
- Do you know a water system that is helping other water systems? There is a new category in the TCEQ Public Drinking Water Recognition program called Water Partners: Water Systems Helping Water Systems. Check out the details at https://www.tceq.texas.gov/drinkingwater/recognition/water_partners.html.

Texas Optimization Program (TOP):

From October to December 2020:

- TOP staff and contractors assisted at the City of Lake Jackson to help remediate and restore the distribution system. TOP provided training to PWS operators and managers.
- TOP has been working with Technical Review and Oversight Team (TROT) staff to provide online training to small groups of representatives of low-pressure membrane plants. The training covers new monthly reporting requirements and provides guidance for verifying compliance in low-pressure membrane plants.

Drought:

- As of January 5, 2021, approximately 8% of the state is in exceptional drought, 11% of the state is in extreme drought, 18% of the state is in severe drought, 20.5% of the state is in moderate drought, and 24% of the state is abnormally dry, and 17% of the state is not experiencing drought.
- As of January 5, 2021, the state's monitored water supply reservoirs are 82.2% full, a decrease of 3.5% since July 2020.

- Staff continue to monitor and provide additional resources to one High-Priority system and two Watch List systems until their current projects are completed.

Assistance for At-Risk Public Water Systems:

- Staff continue to monitor eleven systems in receivership, six systems under temporary management and thirteen systems designated as “Primary At-Risk.”

Cross-Connection Control:

- Program staff are utilizing several options for remote Cross-Connection Control Program (CCCP) Surveys to provide technical assistance.
- The TCEQ Cross-Connection Control Subcommittee conducted its most recent quarterly meeting remotely on December 3, 2020. It was well attended with participation amongst members and new members continue to attend. Topics discussed include creating a workgroup for Data Capture and a discussion on the Lead/Copper rule. Interested attendees can subscribe to meeting notifications on the TCEQ homepage.
- The Cross-Connection Control Program continues to receive many requests for approval of alternate forms.

Inventory Team Information:

(Hannah Evans, Nicole Frisbie, Zach Spivey, Taylor Nickell, Collin Goostree, Kendall Adair, Paiton Upshaw, Celinda Vallejo-Rodriguez, Tabitha Guardiola, James Harville, Katia Ayala, Emily Mailman)

In Q4 2020, DWIP Inventory Team received 1,555 requests and processed 1,269 requests.

Emergency Preparedness Plan (EPP)

(Leticia DeLeon and Taylor Nickell)

12 EPP letters went out from [October 2020 to January 2021](#).

Homeland Security and Emergency Preparedness

(Leticia DeLeon and Taylor Nickell)

2,114 Emergency Contact Update (ECU) forms were processed between October 1st 2020 and December 31st 2020. Water systems are encouraged to keep their emergency contact information up to date at all times. The information can be verified on [Drinking Water Watch](#). A water system needing their information updated can email in their request to pdws@tceq.texas.gov or call (512) 239-4691 to request a 2020 form. TCEQ began to mail out the 2021 form in October 2020 to ensure updates for water systems across the state are completed by May 2021.

If you have any questions you can also contact Leticia De Leon at (512) 239-4978 or (512) 965-2371.

Superior Systems

(Leticia DeLeon and Taylor Nickell)

12 Superior System letter reviews were conducted from October 2020 to January 2021.

Source Water Protection (SWP)

(Mason T. Miller)

- TCEQ DWIP Team manages the SWP contract and assists public water systems with completing and updating SWP plans.
- TCEQ SWP contractor is CDM Smith
- During FY21 CDM Smith and subcontractors will complete source water protection plans for 28 groundwater systems and one surface water body.
- TCEQ DWIP Team assists Texas Rural Water Association as they work with public water systems updating SWP plans and implementing best management practices throughout the state.
- Partnering with Texas Parks and Wildlife Department to implement SWP at State Parks.
 - SWP plans have been completed for Guadalupe River State Park and Choke Canyon State Park Calliham
- TCEQ DWIP Team staff serve as the TCEQ GPS Coordinators and Trainers for TCEQ's staff and contractors.
- TCEQ DWIP Team assists with the Texas Optimization Program (TOP)
- Texas Optimization Recognition Program Update:
 - Water Treatment Plants that received annual awards September 2020 through November 2020: Trinity River Authority Lake Livingston WTP Two Years, City of Waco – Riverside WTP Two Years, City of Greenville WTP Six Years, City of San Marcos WTP Seven Years.
 - 23 surface water treatment plants participating in Recognition Program, currently four have met all the requirements continuously for 5 to 10 years, three for 10 to 15 years and one for more than 15 years.
 - For more information on the Texas Optimization Recognition Program please contact Mason T. Miller at mason.miller@tceq.texas.gov

PDW Conference Save the Date

(Mason T. Miller)

- Mark your calendars for the Annual PDW Conference August 10-11, 2021.

Next DWA WG Meeting: April 2021
