

The Texas Water Infrastructure Coordination Committee (TWICC)

Funding and other assistance for water and wastewater systems

The Texas Water Infrastructure Coordinating Committee (TWICC) is an umbrella organization of state and federal funding and regulatory agencies and technical assistance providers. The goal of TWICC is to provide “one stop shopping” for funding and other assistance for water and wastewater systems.

The TWICC website (www.twicc.org) provides information on what kinds of financial and technical assistance different agencies and organizations provide for water and wastewater systems. There is also a project profile form that entities can submit for review and response by TWICC members.

TWICC members include the Texas Department of Agriculture, Texas Water Development Board, USDA Rural Development, North American Development Bank, U.S. EPA, TCEQ, Public Utilities Commission, Communities Unlimited, Texas Section of AWWA, Texas Division of Emergency Management, General Land Office and Texas Rural Water Association.

Entities interested in water and wastewater systems are welcome to attend TWICC meetings in person, when available, or by phone. The next TWICC meeting is Thursday, May 26, 2022. This virtual meeting will be hosted by the Texas Commission on Environmental Quality. Please contact Dorothy Young if you would like to be added to the agenda.
