

# **The Texas Water Infrastructure Coordination Committee (TWICC)**

## **Funding and other assistance for water and wastewater systems**

The Texas Water Infrastructure Coordination Committee (TWICC) is an umbrella organization of state and federal funding and regulatory agencies and technical assistance providers. The goal of TWICC is to provide “one stop shopping” for funding and other assistance for water and wastewater systems.

The TWICC website ([www.twicc.org](http://www.twicc.org)) provides information on agencies and organizations who can provide for funding and other assistance for water and wastewater systems.

TWICC members include the Texas Commission on Environmental Quality, Texas Department of Agriculture, Texas Water Development Board, USDA Rural Development, North American Development Bank, U.S. Environmental Protection Agency, Public Utilities Commission, Communities Unlimited, Texas Section of AWWA, Texas Division of Emergency Management, Water Finance Exchange, General Land Office and Texas Rural Water Association.

Entities interested in discussing funding, regionalization and other assistance for water and wastewater systems are welcome to attend TWICC meetings in person or by phone. Please contact Dorothy Young with TCEQ (contact information below) if you would like to be added to the agenda or if you have any questions.

Texas Commission on Environmental Quality (TCEQ)  
Dorothy Young  
Water Supply Division
