

Viewing Exception Requests in iWDD

Previously, customers could access information concerning their exception requests in the Water Utility Database through TCEQ's external webpage, called "iWUD." On September 1, 2014, the TCEQ's utility programs transferred to the Public Utility Commission which required TCEQ to modify iWUD. Information concerning CCN and rates information has been removed and iWUD has been restructured and renamed the Water Districts Database "iWDD". The Water District Database is a collection of data from water districts and public drinking water systems that submit information to the TCEQ. You can use iWDD to search for the names of districts, their addresses, the counties in which they are located, status of their applications, or maps of their service areas. The WDD also provides a report showing the status of TCEQ reviews of engineering plans and exception requests for public water systems.

Information regarding exception requests can now be found by searching the new Water District Database. This database can be accessed at the URL below:

<http://www14.tceq.texas.gov/iwud/index.cfm>

The TCEQ is currently working on enhancements to the database to allow quicker access to information on exception requests.

Follow the steps described below to look up information regarding a specific exception request.

1. Click the link "List Documents by Type".

Search the Water District Database (WDD)

- Search by:
 - [Water District Name or Number](#)
 - [List Documents by Type](#)
- [Request a WDD Report](#)
- [View a District Map](#)
- [PUC Home](#)
- [Individual Affiliation lookup](#)
- [Explanation of Search Results](#)
