Navigating Around the Map

Main Toolbar:

Measure

- The Measure tool enables the user to measure point, linear, and area features on the map.
- To measure a feature, click on the **Measure**  tool on the main toolbar.

- The Measure window will appear as shown below.

- To close the window, click the  in the upper right-hand corner. To collapse the window, click the  just to the left of the close button.
- There are three different ways to measure features on the map:

Area - Click this button, choose a unit of measure from the drop-down list, then single-click the first point of your polygon on the map. Continue to single-click until you have finished measuring your area feature. Double-click to end. Results will appear in the Measure window.

Distance - Click this button, choose a unit of measure from the drop-down list, then single-click the first point of your line on the map. Continue to single-click until you have finished measuring your linear feature. Double-click to end. Results will appear in the Measure window.

 **Location** - Click this button, choose a unit of measure from the drop- down list, then click a point on the map then move the mouse across the map. Result will display the coordinates for both the green indicator and cursor

Bookmarks

- The **Bookmark** tool can be used to view a particular map extent (or zoom area).
- To **view** a bookmark, click on the Bookmark tool  in the main toolbar.

- To close the window, click the  in the upper right-hand corner. To collapse the window, click the  just to the left of the close button.

Legend

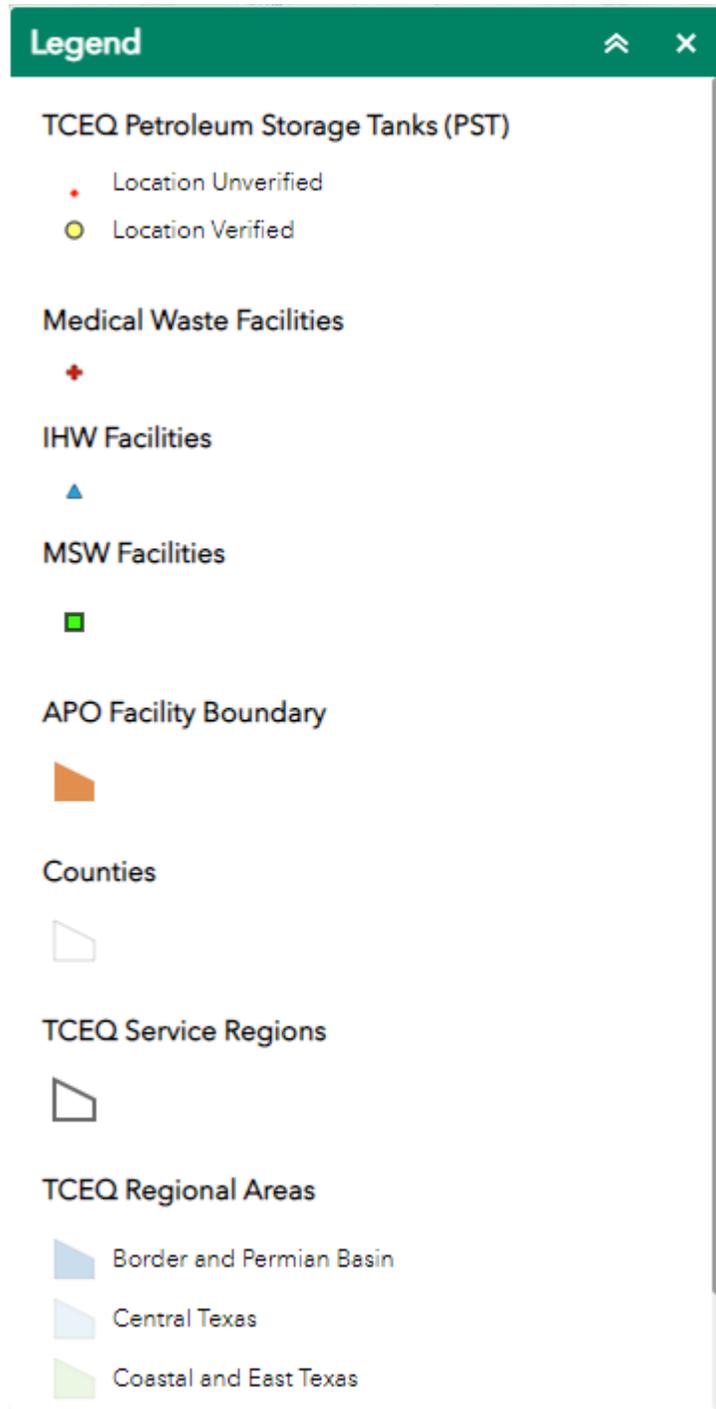

- The **Legend** tool shows the symbology for the selected layers that are set using the layers tool
- Simply click the **Legend** button  in the main tool bar

- To close the window, click the  in the upper right-hand corner. To collapse the window, click the  just to the left of the close button.

•

- The legend will only show those layers that are currently turned on using the layers tool.

Layers

- The **Layers** tool can be used to turn on and off data layers such as the Zip Code Areas and the current query results
- Simply click the **Layers** button  in the main tool bar, then check or uncheck the data layers you would like to see.

- To close the window, click the  in the upper right-hand corner. To collapse the window, click the  just to the left of the close button.

Layer List
⤴
✕

Layers
🔍 📄

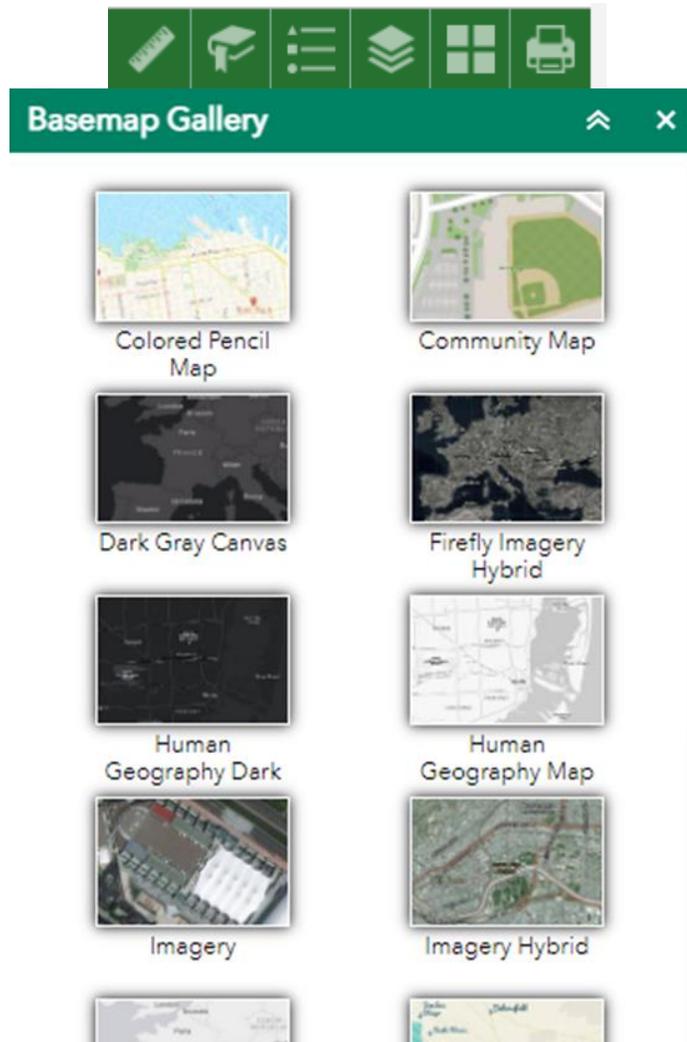

- ▶ TCEQ Petroleum Storage Tanks (PST) ⋮
- ▶ Medical Waste Facilities ⋮
- ▶ IHW Facilities ⋮
- ▶ MSW Facilities ⋮
- ▶ APO Facility Boundary ⋮
- ▶ Zip Code Areas ⋮
- ▶ U.S. Congressional Districts ⋮
- ▶ Texas Senate Districts ⋮
- ▶ Texas House Districts ⋮
- ▶ Edwards Aquifer ⋮
- ▶ USGS Watersheds ⋮
- ▶ Counties ⋮
- ▶ TCEQ Service Regions ⋮
- ▶ TCEQ Regional Areas ⋮

- Expand the layer by clicking the small arrow to the left of the check box. Here you can see the layer symbology.
- Click the three dots to the right to set the layer transparency and drawing order.

Basemap

- The **Basemap** tool can be used to change the background in the map viewer. The topographic basemap is the default basemap.
- To change the basemap, click on the Basemap tool  on the main toolbar, then select the basemap you wish to use.

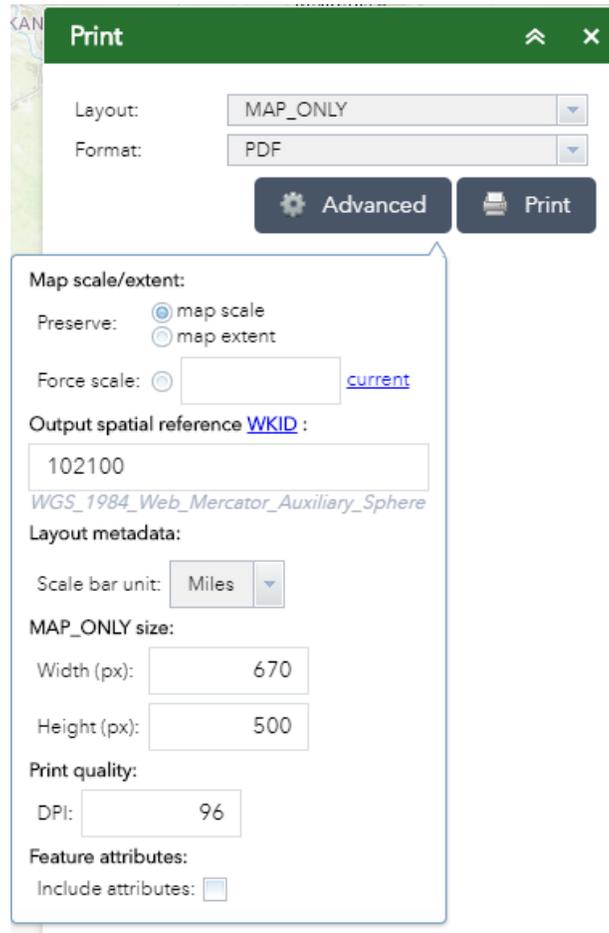

- To close the window, click the  in the upper right-hand corner. To collapse the window, click the  just to the left of the close button.
- You may choose from thirty-one different basemaps. Note: Some basemaps (such as Open Street map) are not visible when zoomed in too close.

Print

- Use the **Print** tool  to save the current map to an image file. You may give it a customized title, select a layout and size, and format. Advanced features include ability to set map scale, pixel dimensions, and DPI.

Analysis Tools:

 **Point Queries** – Click to enter and execute predefined queries.

- Click “Point Queries” icon 
- Under Tasks, select the task you would like to search.

Point Queries	
Tasks	Results
<input type="radio"/> PST Approved Date	
<input type="radio"/> IHW Facility Type	
<input type="radio"/> Medical Waste Facility Type	
<input type="radio"/> MSW Facility Type	
<input type="radio"/> IHW Additional ID Status	
<input type="radio"/> Medical Waste Additional ID Status	
<input type="radio"/> MSW Additional ID Status	
<input type="radio"/> APO Expiration Date	
<input type="radio"/> Aggregate Type	

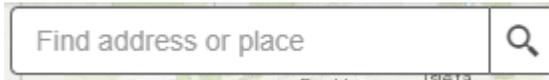

In the Query Criteria search bar enter the information required to run that specific query.

- Use the expansion button  in the bottom right-hand corner of the Point Queries pop up to lay box to view all types of point query options.

 **Polygon Queries** - Click to enter and execute queries

- Click Polygon Queries Icon 

 **Search Bar** – Type in an address or place into the bar to search for a location. As you type, you will be presented with similar matches. If you see your desired location appear, simply click on it and the map will zoom to that location. Or you can complete typing in the location and then press Enter on the keyboard or click the magnifying glass. You can click the X on the bar to clear out the search bar.

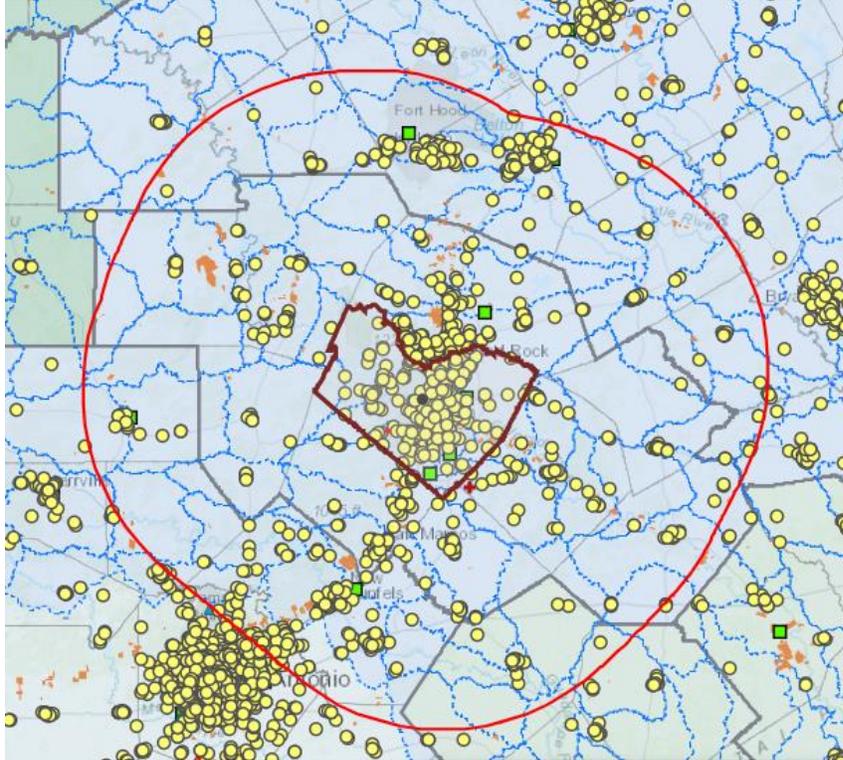

The following are examples of the types of searches you can perform.

- Addresses: 100 Congress Ave, Austin, TX, 78701
- Names: Zilker Park
- Counties: Travis County

Buffer Distance – this tool allows you to view the incidents in a specified area, point location, or along a line. You can download and print a list of incidents using this tool.

- Search for the location, enter the buffer distance, and click the magnifying glass icon. Then, the buffer distance tool draws a buffer zone around the location that you selected in your query with that distance. The results will also include the facilities that fall within the defined buffer zone that was selected.

- Click on the Results button to show the facilities within the buffer distance boundary. Click the button to view additional details about the facilities within the buffer zone.

Downloading Results – To download the results select the download icon, highlighted in the blue box.

- The Select Format box will open. CSV format is the only format available to select.
- Select the download button to begin downloading the results. Follow your computer's prompts to save the downloaded file.

The screenshot shows the 'Polygon Queries' interface. At the top, there is a green header with the title 'Polygon Queries' and navigation icons. Below the header, the word 'Results' is displayed. A 'Back' button is on the left, and the total area is shown as 'Area : 437,127,042,190.35 ft²'. A toolbar contains icons for refresh, download, print, and settings. A blue box highlights the download icon, which has opened a 'Select Format' dropdown menu showing 'CSV' and a 'Download' button. Below this, a list of facility types is shown with expandable plus signs and counts:

Facility Type	Count
+ PST Facilities	(1,697)
+ Medical Waste Facilities	(3)
+ IHW Facilities	(2)
+ MSW Facilities	(9)
+ U.S. Congressional Districts	(11)
+ Texas Senate Districts	(10)
+ Texas House Districts	(29)
+ APO Facility Boundary	(166)

At the bottom, there is a text prompt 'Upload shapefile to include in analysis' and an 'Upload' button.

Printing Results – Select the printer icon on the Polygon Queries results page, highlighted in the blue box. The Layout box will open.

- Select the print layout you wish to use.

Upload shapefile to include in analysis [Upload]

- As noted in the Layout box, the report title and comments can be edited in the report preview.
- Once the report is loaded, select the Print button to print the report.

Zoom Tools:

Zoom In – Click this button once or multiple times to **zoom in** at fixed increments

Zoom Out – Click this button once or multiple times to **zoom out** at fixed increments

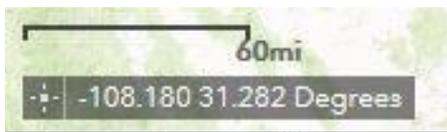

Home – Click once to return to the default extent

My Location – Clicking this button will take you to your current location.

Coordinate Indicator:

- Click this  tool, then click anywhere on the map to obtain the coordinates in decimal degrees.
- The tool will also show the coordinates of your current mouse position over the map.
