

Municipal Solid Waste License Requirements by Facility Type

Each classification of a municipal solid waste (MSW) facility shall employ at least one licensed individual who supervises or manages the operations of a MSW facility. The class of license required for the different classifications of facilities is as follows:

Type of MSW Facility	Class of License Required
Landfill Facilities (Type I; Type IAE; Type IV; and Type IVAE)	Class A
Type IX Landfill Mining Facilities	Class A
Type V Storage and Processing Facilities not otherwise specified	Class A or Class B
Type IX Energy or Material Recovery Facilities(other)	Class A or Class B
Permitted Compost Facilities	Class A or Class B
Type VI Demonstration Facilities	Class A or Class B
Registered Compost Facilities	Class A or Class B
