Minimum Documentation Requirements for Large Quantity Generators or TRI Form R Reporters

P2 Plan	Executive Summary
 Facility description List of all hazardous waste generating activities List of all TRI release activities Prioritized list of technically and economically feasible P2 projects Explanation of P2 projects to be undertaken with discussion of: technical and economic considerations environmental and human health risks Estimate of type and amount of reduction anticipated Implementation schedule for each P2 project Description of measurable P2 goals Explanation of employee awareness and training programs Discussion of projects that may result in the release of a different pollutant or contaminant, or that may shift the release to another medium Signed certification by owner or corporate officer of commitment and ability to authorize company resources for implementation Executive Summary of the P2 Plan 	 Facility description, including: facility name mailing and physical addresses contact, phone numbers, and e-mail general description of facility ID numbers—TCEQ solid waste, EPA, and TRI numbers SIC code or NAICS (if available) time period the five-year plan is in effect List of all hazardous wastes generated and the volume of each List of all reportable TRI releases and the volume of each Prioritized list of pollutants and contaminants to be reduced Statement of measurable reduction goals Explanation of environmental and human health risks considered in determining reduction goals List of projects with an associated schedule of implementation Implementation schedule for future reduction goals Discussion of projects that may result in the release of a different pollutant or contaminant, or that may shift the release to another medium Annual Progress Report Every July 1 an Annual Progress Report must be submitted using TCEQ forms. Forms are available online or in this guide.

Minimum Document Requirements for Small Quantity Generators That Do Not Report on TRI Form R

P2 Plan	Executive Summary
 Facility description List of hazardous wastes generated and volume of each Prioritized list of pollutants and contaminants to be reduced Statement of measurable reduction goals Discussion of environmental and human health risks considered in determining reduction goals List of P2 projects with implementation schedule Implementation schedule for future reduction goals Signed certification by owner, or officer, of commitment and ability to authorize company resources for implementation Executive Summary of the P2 Plan 	 Facility description, including: facility name mailing and physical addresses contact, phone numbers, and e-mail general description of facility ID numbers for TCEQ solid waste and EPA SIC code or NAICS (if available) Time period the five-year plan is in effect Projection of the annual amount of hazardous waste that the facility expects to generate by the end of the 5-year plan Prioritized list of pollutants and contaminants to be reduced List of source-reduction activities associated with reduction of prioritized wastes identified in the plan
