

Biography: Kurt Middelkoop

University of Texas at Arlington

Current Position

Kurt Middelkoop has been working for the University of Texas at Arlington's TMAC program for the past 23 years as an Industrial Engineer. As a NIST MEP approved Center, TMAC is the official representative of the MEP National Network in The State of Texas. He helps to create economically sound processes that minimize negative environmental impacts while conserving energy and natural resources. He has 18 years of training and on-site delivery of assessments promoting best practices from the EPA, DOE and the US Green Building Council.
