

40 CFR Part 60, Subpart KKK - Requirements Reference Tables

Subpart KKK Standards

- [§60.632\(a\)|1](#) Exemption for equipment in vacuum service
- [§60.632\(a\)|2](#) Fugitive requirements for pumps in light liquid service
- [§60.632\(a\)|4](#) Fugitive requirements for pressure relief devices in gas/vapor service
- [§60.632\(a\)|5](#) Fugitive requirements for open-ended valves or lines
- [§60.632\(a\)|6](#) Fugitive requirements for valves in gas/vapor service
- [§60.632\(a\)|7](#) Fugitive requirements for pumps in heavy liquid service
- [§60.632\(a\)|10](#) Fugitive requirements for valves in heavy liquid service
- [§60.632\(a\)|17](#) Fugitive requirements for compressors
- [§60.632\(a\)|18](#) Fugitive requirements for valves in light liquid service
- [§60.632\(a\)|19](#) Fugitive requirements for pressure relief devices in light liquid service
- [§60.632\(a\)|20](#) Fugitive requirements for pressure relief devices in heavy liquid service
- [§60.632\(a\)|21](#) Fugitive requirements for connectors
- [§60.632\(a\)|22](#) Fugitive requirements for vapor recovery systems
- [§60.632\(a\)|23](#) Fugitive requirements for enclosed combustion devices
- [§60.632\(a\)|24](#) Fugitive requirements for flares
- [§60.632\(a\)|25](#) Fugitive requirements for closed vent systems
- [§60.632\(b\)](#) Alternative fugitive requirements for valves
- [§60.632\(c\)](#) Alternative means of emission limitation for components
- [§60.632\(f\)](#) Exemption for components not in VOC or wet gas service
- [§60.633\(f\)](#) Exemption from fugitive compressor control requirements for reciprocating compressors in wet gas service

These relationship entry screens and flowcharts are for use by sources subject to the Texas Federal Operating Permits Program only and are subject to revision.
