

40 CFR 60 Subpart PPP - Rule Interpretation Memos

- ! [Explanation on “accurate within +/- percent over its operating range” contained in §60.683\(a\) and \(b\)](#) [September 9, 1999]

Last Modified: September 9, 1999

Air Rule Interpretation Summary Form

Code Number	60PPP.001
-------------	-----------

Explanation on “accurate within \pm percent over its operating range” contained in §60.683(a) and (b).	September 9, 1999
--	-------------------

Rule/Regulation Citation(s):	Federal Rule: <u>X</u> State Regulation: <u> </u>
40 C.F.R. 60, Subpart PPP § 60.683(a)	Description: Standard of Performance for Wool Fiberglass Insulation Manufacturing Plants
Interpretation Request:	
In 40 Code of Federal Regulations (C.F.R.) Part 60, § 60.683(a) the owner/operator is required to install a flow rate monitor certified by the manufacturer to be accurate within \pm 5% over its operating range. What does “over its operating range” mean?	
Determination:	
The phrase “to be accurate within \pm 5% over its operating range” means that the monitoring device needs to be accurate to within \pm 5% percent of the full scale of the device.
