

Plain Language Summary for Concrete Batch Plant Standard Permit (Instructions)

All air permit applications subject to the public notice requirements of 30 Texas Administrative Code (TAC) Chapter 39 must prepare and submit to the TCEQ a plain-language summary of the application. The summary must be provided in English and the alternative language as required by 30 TAC § 39.426, if applicable. The summary should be no more than two pages long and describe the following:

- (1) the function of the proposed plant or facility;
- (2) the expected output of the proposed plant or facility;
- (3) the expected pollutants that may be emitted or discharged by the proposed plant or facility; and
- (4) how the applicant will control those pollutants so that the proposed plant will not have an adverse impact on human health or the environment.

Use the following template to complete a summary for the proposed concrete batch plant standard permit registration application. The template may be modified but must include all four elements described above.

[*Company Name*] (CN[#####]) has submitted an application to register a [*temporary/permanent/specialty*] concrete batch plant under the Air Quality Standard Permit for Concrete Batch Plants for registration number [#####]. The concrete batch plant (RN[#####]) will be located at [*address/proposed location*], [*City*], [*County*] County.

This registration will authorize the concrete batch plant to have a maximum production rate of [###] cubic yards per hour of concrete and operate up to [####] hours per year. Particulate matter will be emitted from the handling of aggregate, cement, and flyash. Water sprays will be used for dust control. Enclosures and baghouses will be used to control cement and flyash dust.

- **Company Name:** Enter the name of the applicant. This should match the name associated with the customer number.
- **Customer Number:** Enter the Customer Number in this section. Each Individual or Organization is issued a unique 11-digit identification number called a CN (e.g. CN123456789).
- **Temporary/Permanent/Specialty:** Insert the type of plant represented in the application.
- **Registration Number:** Enter the permit number. For Initial permit applications, this will be provided by the Air Permits Initial Review Team.
- **Regulated Entity Number:** Enter the Regulated Entity number in this section. Each site location is issued a unique 11-digit identification number called an RN (e.g. RN123456789).
- **Address/Proposed Location:** Enter the address or location (i.e. driving directions) of the facility. This should match what is provided in the PI-1S Workbook.
- **City:** Enter the city nearest the facility.
- **County:** Enter the county the facility is located.
- **Maximum Production Rate:** Insert the maximum production rate (yd³/hr) represented in the application.
- **Operating Hours:** Insert the number of operating hours per year represented in the application.
