

**Plain Language Summary for New Source Review (NSR) Renewal
Application for Air New Source Review Permit Number 119531**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Sabre Communications Corporation (CN601656325) has submitted an application for renewal of permit number 119531. The Sabre Tubular Structures/Hot Dip Galvanizing Facility (RN105361984) produces/manufactures painted and/or galvanized tubular steel structures at 8669 E. Highway 67, Alvarado, Johnson County.

This renewal will authorize the continued operation of a paint booth and metal galvanizing touch ups. Sabre Communications Corporation has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
VOC	47.17
PM	0.03
PM10	0.03
PM2.5	0.03
Exempt Solvent	10.41

The facilities being renewed continue to be controlled by filters and exhaust fans.
