

Strong Ready Mix, LTD (CN604707083) has submitted an application to renew a permanent concrete batch plant under the Air Quality Standard Permit for Concrete Batch Plants for registration number 125689. The concrete batch plant (RN107851248) is located at 108 CR 583, Abilene, Taylor County.

This registration will authorize the concrete batch plant to have a maximum production rate of 150 cubic yards per hour of concrete and operate up to 3132 hours per year. Particulate matter will be emitted from the handling of aggregate, cement, and flyash. Water sprays will be used to dust control. Enclosures and baghouses will be used to control cement and flyash dust.
