

Plain Language Summary for New Source Review (NSR) Renewal Application for Air
New Source Review Permit Number 1445A

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

BASF Corporation (CN600124895) has submitted an application for renewal of permit number 1445A. The Oleum and Sulfuric Acid Storage Tank farm is located within the Freeport Site (RN100218049) at 602 Copper Road, Freeport, Brazoria County.

This renewal/amendment will authorize the continued operation of the sources used in storage of oleum and sulfuric acid. BASF has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
SOx	1
H2SO4	0.14

The facilities being renewed continue to be controlled by scrubber.
