

Plain Language Summary for New Source Review (NSR) Initial Application for Air New Source Review Permit Number 169683

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Mine Service, Inc. (CN605139781) has submitted an application for initial permit number 169683. The Waco Pit #598/630 (RN102607561), will produce/manufacture gravel and crushed rock at 1953 Tom Ledbetter Drive Waco, McLennan County.

This permit will authorize a permanent rock crushing facility to consist of one crusher and one screen plant, multiple conveyances and product piles. Mine Service Inc. has listed in the application the pollutants and amounts that will be emitted from each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
VOC	17.30
PM	5.13
PM ₁₀	2.21
PM _{2.5}	0.65
NO _x	5.32
CO	5.07
SO ₂	1.63
Pb	0.00

The new facilities will be controlled by water suppression spray and low sulfur fuel.
