

**Plain Language Summary for New Source Review (NSR) Initial
Application for Air New Source Review Permit Number 175550**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Hanwha Advanced Materials America LLC (CN606237550) has submitted an application for initial permit number 175550. The Hanwha Advanced Materials America- Georgetown (RN111930749) will produce/manufacture automotive parts at 3600 N. IH 35, Georgetown, Williamson County.

This permit will authorize the manufacturing plant to have an annual SMC material usage rate of 10,047 tons/yr and operate 8,760 hours per year. Hanwha Advanced Materials America LLC has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
VOC [Styrene / HAP]	22.61

The new facilities will be controlled by local exhaust ventilation systems for Material Cutting and SMC presses and routed to 2 stacks to atmosphere.
