

**Plain Language Summary for Concrete Batch Plant Standard Permit
Application for Concrete Batch Plant Standard Permit Registration Number [176392L002]**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 3. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Van Eaton Ready Mix, Inc. (CN604258707) has submitted an application to register a temporary concrete batch plant under the Air Quality Standard Permit for Concrete Batch Plants for registration number 176392L002. The concrete batch plant (RN111976809) will be located at the following location: From the intersection of State Highway 158 and Farm Road 33 in Garden City, head north on Farm Road 33 for 14.8 miles then turn east onto Farm-to-Market Road 461 and continue for 5.0 miles. Turn southeast onto U.S. Highway 87 and continue for 10.1 miles then turn north onto McDonald Road North and continue for 1.1 miles. The facility will be located on the east side of the road, 15.8 miles northeast of the intersection of State Highway 158 and Farm Road 33 in Garden City, Glasscock County, TX.

This registration will authorize the concrete batch plant to have a maximum production rate of 200 cubic yards per hour of concrete and operate up to 1,300 hours per year. Particulate matter will be emitted from the handling of aggregate, cement, and flyash. Roads and traffic areas will be watered to control dust. Dust from stockpiles will be minimized by watering. Enclosures and baghouses will be used to control cement and flyash dust.
