

Plain Language Summary for New Source Review (NSR) Initial Application for Air New Source Review Permit Number 176766

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

RPower Retail LLC (CN606117455) has submitted an application for initial permit number **176766**. Standard Meat plant (RN110245677) is a meat cutting, processing, packaging, and cooking plant located at 455 Sansom Blvd, Saginaw, TX 76179.

This permit will authorize the operation of three diesel-fired engines, to be operated for both emergency and non-emergency use. The engines will provide power to the meat plant. Each engine will receive ultra-low sulfur diesel fuel from one sub base storage tank. RPower Retail LLC has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
NOx	0.76
PM	0.09
PM10	0.07
PM2.5	0.07
CO	3.96
VOC	0.22
Ammonia	0.04
SO2	0.01

Each engine will be controlled by selective catalytic reduction, limited operation, and good operating practices.
