

## Plain Language Summary for New Source Review (NSR) Initial Application for Air New Source Review Permit Number [178601]

*The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.*

Seatex, LLC (CN[605456888]) has submitted an application for initial permit number [178601]. The Seatex El Campo Facility (RN[101969343]) will produce/manufacture chemical products at 1102 North Blue Creek Road, El Campo, Wharton County.

This permit will authorize the use of organic compounds, inorganic compounds, and HAPs, in facility operations. Seatex, LLC has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

| <b>Pollutant</b> | <b>Proposed Emissions (tons per year)</b> |
|------------------|---|
| VOC              | 9.269                                     |
| HAPs             | 9.269                                     |
| IOC              | 0.000006                                  |

The new facilities will be controlled by carbon adsorption units (CAS-FT1-2) composed of at least two (2) vapor phase activated carbon drum canisters connected in series and equipped with sample points to allow VOC breakthrough monitoring for maintenance of system integrity resulting in a control efficiency of 99.9%..
