

Plain Language Summary for New Source Review (NSR) Renewal Application for Air New Source Review Permit Number 18056

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

FXI, Inc. (CN603962127) has submitted an application for renewal of permit number 18056. The Terrell Facility (RN100216670) owns/operates a slabstock polyurethane foam manufacturing facility at 501 Industrial Blvd, Terrell, Kaufman County.

This renewal will authorize the continued operation of equipment authorized under NSR Permit 18056 at the Terrell Facility, which includes, a pour line area, bulk storage tanks, and fugitive emissions. FXI, Inc. has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
VOC	11.5
2,4-TDI	0.06
2,6-TDI	0.05
HAPs	<25

The facilities being renewed will not have any new emission controls implemented.
