

**Plain Language Summary for Concrete Batch Plant Standard Permit Application for Concrete
Batch Plant Standard Permit Registration Number 180799**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 3. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Texas Australia Rock Company LLC (CN605822477) has submitted an application to register a permanent specialty concrete batch plant under the Air Quality Standard Permit for Concrete Batch Plants for registration number 180799. The concrete batch plant (RN112244363) will be located north of San Angelo, Tom Green County. Driving instructions are as follows: *from intersection of Highway 277 and East FM 2105 travel west on FM 2105 for 1.44 miles and turn south on unnamed dirt road travel 0.22 miles to site entrance on the west side of the road.*

This registration will authorize the concrete batch plant to have a maximum production rate of 30 cubic yards per hour of concrete and operate up to 8760 hours per year. Particulate matter will be emitted from the handling of aggregate, cement, and flyash. Roads and traffic areas will be controlled by watering them to control dust. Dust from stockpiles will be minimized by watering. Enclosures and baghouses will be used to control cement and flyash dust.
