

## Plain Language Summary for New Source Review (NSR) Initial Application for Air New Source Review Permit Number 180933

*The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.*

Ennis-Flint, Inc. (CN605613785) has submitted an application for initial permit number 180933. The Ennis Flint North facility (RN100730894) will produce/manufacture waterborne traffic paint at 2803 Spur 469, Ennis, Ellis County.

This permit will authorize the waterborne paint production equipment and emission points, raw material bulk storage tanks, and equipment to produce pelletized thermoplastics. Ennis-Flint, Inc., has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
VOC	5.01
HAP	2.89
PM	0.87
PM10	0.71
PM2.5	0.65
Inorganic Compounds	1.26

The facilities will be controlled by a dust collector on the waterborne paint line and four (4) dust collectors on the thermoplastics line. Raw material weigh hoppers on each production line and bulk storage silos are controlled by bin vent filters.
