

Plain Language Summary for New Source Review (NSR) Amendment Application for Air New Source Review Permit Number 20600

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

The Sherwin-Williams Manufacturing Company (CN605449560) has submitted an amendment application for permit number 20600. The Sherwin-Williams Company Aerosol Paint Manufacturing Facility (RN 100212166) produces/manufactures aerosol cans of paint at 301 West Plant Road in Ennis, Texas.

This amendment will authorize increases in emissions from the site based on adding an additional gas house, new propellant tank, new storage tank, and general updates to representations.

The Sherwin-Williams Manufacturing Company has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Total Proposed Emissions (tons per year)
VOC	88.41
Exempt Solvent	33.10
NO _x	2.88
CO	2.00
PM	0.26
PM ₁₀	0.23
PM _{2.5}	0.21
SO ₂	0.01

The facilities continue to be controlled by filtering particulates and burning off gasses which lowers the amounts going into the air.
