Plain Language Summary for New Source Review (NSR) Renewal Certification Application for Air New Source Review Permit Number 2257B

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Alamo Concrete Products Company (CN600240212) has submitted an application for renewal of permit number 2257B. The Port Lavaca Plant (RN100249044) produces concrete at 2049 W Main St, Port Lavaca, Calhoun County.

This renewal will authorize the continued operation of a concrete batch plant. Alamo Concrete Products Company has certified there will be no changes to the permit. The following permitted emission rates will remain the same.

Pollutant	Total Amount Allowed (tons per year)
PM	1.62
PM10	1.32
PM2.5	1.32

The facilities being renewed continue to be controlled by enclosures and baghouses to control cement and flyash dust. Roads are paved and cleaned, and stockpiles are watered to control dust.
