

**Plain Language Summary for New Source Review (NSR) Renewal Certification
Application for Air New Source Review Permit Number 2764A**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Heidelberg Materials Southwest Agg LLC (CN603475864) has submitted an application for renewal of permit number 2764A. The Rock Crushing Plant (RN102211174) produces/manufactures Aggregate Mining Processing and Sales in Burnet, Burnet County, Texas. The Rock Crushing Plant is located approximately 12.8 miles north on Hwy 281 from the intersection of Hwy 71 and Hwy 281 in Burnet, Texas.

This renewal will authorize the continued operation of the Rock Crushing Plant located in Burnet, Burnet County, Texas. Heidelberg Materials Southwest Agg LLC has certified there will be no changes to the permit. The following permitted emission rates will remain the same.

Pollutant	Total Amount Allowed (tons per year)
PM	19.18
PM10	7.66
PM2.5	1.19

The facilities being renewed continue to be controlled by water sprays at the crusher, screen, material transfer points, material stockpiles, and active work areas. Also, roads and traffic areas will be sprayed with water as necessary to reduce fugitive emissions as a best management practice. The emission controls associated with this facility are economically reasonable and technically practicable considering the age of the facility and the impact of its emissions on the surrounding area.
