

**Plain Language Summary for New Source Review (NSR) Renewal Certification
Application for Air New Source Review Permit Number 3726**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Optimus Steel, LLC (CN605478452) has submitted an application for renewal of permit number 3726. The Optimus Steel Beaumont Mill (RN100226059) produces/manufactures steel at 100 Old Hwy 90 West, Vidor, Orange County.

This renewal will authorize the continued operation of an EAF-based steel mill, producing billets from scrap steel that are either sold or reheated in the billet reheat furnace and hot rolled on site into wire rod. Optimus Steel, LLC has certified there will be no changes to the permit. The following permitted emission rates will remain the same.

Pollutant	Total Amount Allowed (tons per year)
CO	15.91
NOx	99.99
SO2	0.27
VOC	2.45
PM	3.39
PM10	3.39

The emission source included in this renewal is a furnace that uses specialized burners to minimize emissions.
