

**Plain Language Summary for New Source Review (NSR) Renewal Certification  
Application for Air New Source Review Permit Number 4523**

*The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.*

Hempel USA, Inc. (CN603112509) has submitted an application for renewal of permit number 4523. The Hempel Dallas Facility (RN100640580) produces/manufactures paint products at 2728 Empire Central, Dallas, Dallas County.

This renewal will authorize the continued operation of paint manufacturing, storage tanks, steam boilers, and cooling tower. Hempel USA, Inc. has certified there will be no changes to the permit. The following permitted emission rates will remain the same.

| Pollutant         | Total Amount<br>Allowed<br>(tons per year) |
|-------------------|--|
| VOC               | 22.30                                      |
| NOx               | 5.26                                       |
| CO                | 4.42                                       |
| SO2               | 0.03                                       |
| PM                | 2.27                                       |
| PM <sub>10</sub>  | 2.27                                       |
| PM <sub>2.5</sub> | 2.27                                       |
| HAP               | <25.00                                     |

The facilities being renewed continue to be controlled by using modern production methods, vapor balanced storage tanks, efficient natural gas-fired low-NOx combustion equipment, and baghouses.
