

**Plain Language Summary for New Source Review (NSR) Renewal Certification
Application for Air New Source Review Permit Number 5796**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Wallis Concrete, LLC (CN 604282764) has submitted an application for renewal of permit number 5796. The Precast Concrete Manufacturing Plant (RN102860228) produces/manufactures Precast Concrete Products at 646 Wallis Concrete Road, Wallis, Austin County.

This renewal will authorize the continued operation of precast concrete product manufacturing. Wallis Concrete, LLC has certified there will be no changes to the permit. The following permitted emission rates will remain the same.

Pollutant	Total Amount Allowed (tons per year)
PM10	0.005
PM	0.011
PM10	0.005
PM	0.021
PM10	0.010

The facilities being renewed continue to be controlled by storing cement in a completely enclosed silo. The cement silo has two fabric filter baghouses installed so that the air that is pushed out when it is filled doesn't carry dust with it. The cement weigh hopper is enclosed and cement is emptied into an enclosed cement mixer where water is added to perform the mixing operation. All stockpiles and working areas are sprayed as necessary to control dust emissions.
