

**Plain Language Summary for New Source Review (NSR) Renewal Certification
Application for Air New Source Review Permit Number 6587A**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Rack Technology, Inc., (CN600419931) has submitted an application for renewal of permit number 6587A. The metal rack cleaning and coating facility (RN100733146) produces/manufactures metal plating racks at 1001 Enterprise Place, Arlington, Tarrant County.

This renewal will authorize the continued operation of facilities associated with manufacturing of metal racks and associated parts. Rack Technology, Inc. has certified there will be no changes to the permit. The following permitted emission rates will remain the same.

Pollutant	Total Amount Allowed (tons per year)
TCE	6.35
VOC	9.82
NOx	0.72
CO	0.11
SO2	0.03
HCL	1.42
PM	0.07

The facilities being renewed continue to be controlled by gasses are burned off which lowers what is going into the air.
