

**Plain Language Summary for New Source Review (NSR) Renewal
Application for Air New Source Review Permit Number 73204**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

United Airlines, Inc. (CN600124846) has submitted an application for renewal of permit number 73204. The George Bush Intercontinental Maintenance Facility (RN103019295) maintains and services aerospace components at 4661 Wright Rd, Houston, Harris County.

This renewal will authorize the continued operation of aerospace component maintenance and surface coating. United Airlines, Inc has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted (potential to emit) each year for all the operations covered by this permit.

Pollutant	Proposed Emissions (tons per year)
VOC	45.46
PM	3.70
Exempt Solvent	10.50
Inorganic Compounds	0.05

The permitted emission sources being renewed continue to be controlled by filters to control particulates from the paint booths.
