

**Plain Language Summary for New Source Review (NSR) Renewal
Application for Air New Source Review Permit Number 73208**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

ANR Pipeline Company (CN600129324) has submitted an application for renewal of permit number 73208. The EG Hill Compressor Station (RN100218510) is a Natural Gas Transmission Compressor Station that compresses pipeline natural gas eighteen (18) miles North of Gruver, Hansford County.

This renewal will authorize the continued operation of seven (7) natural gas compressor engines. ANR Pipeline Company has listed in the application the pollutants and amounts that will be emitted for the engines covered under this NSR permit. Below is the total amount for each pollutant that is proposed to be emitted each year for the engines covered under this NSR permit.

Pollutant	Proposed Emissions (tons per year)
VOC	96.60
PM10	39.20
NOx	4,824.50
CO	356.30
SO2	0.70

The facilities being renewed continue to be controlled by good combustion practices and firing only sweet natural gas.
