

**Plain Language Summary for New Source Review (NSR) Renewal
Application for Air New Source Review Permit Number 73238**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

OXY USA Inc. (CN600268926) has submitted an application for renewal of permit number 73238. The Block 31 Gas Plant (RN100223569) handles gas produced from the Block 31 oil field. The site is located at 1501 FM 1601, Crane, TX 79731-6512. To reach the site, drive 5 miles north of Crane on FM 1601. The site is located in Crane County.

This renewal will authorize the continued operation of a boiler. Oxy seeks to consolidate the North Boiler, authorized by PBR Registration No. 177407, with this renewal application. Additionally, Oxy will remove the non-operational Power Boiler No. 102 from this permit. Oxy has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
VOC	2.30
NO _x	12.65
CO	15.60
SO ₂	5.90
PM/PM ₁₀ /PM _{2.5}	3.20

The facilities being renewed continue to be controlled by fuel flow rate monitoring and best combustion practices.
