

Plain Language Summary for New Source Review (NSR) Renewal Certification Application for Air New Source Review Permit Number 75065

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Austin White Lime Company, Ltd. (CN605703685) has submitted an application for renewal of permit number 75065. The 4-T Rock Crushing Plant (RN192562543) produces/manufactures crushed limestone at 4154 S.H. 195, Georgetown, Williamson, County.

This renewal will authorize the continued operation of crushing, screening, storage and loading/unloading of raw limestone at the plant. Raw limestone is crushed in a primary crusher, screened, crushed in a secondary crusher and re-screened for additional crushing as required prior to storage in stockpiles and storage bins for unloading/loading operations. Austin White Lime Company, Ltd. has certified there will be no changes to the permit. The following permitted emission rates will remain the same.

Pollutant	Proposed Emissions (tons per year)
Particulate Matter	31.73
Particulate Matter less than 10 microns	12.93

The facilities being renewed continue to be controlled by water spray systems and a functional water truck.
