

**Plain Language Summary for New Source Review (NSR) Amendment
Application for Air New Source Review Permit Number 9476**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

TCI Texarkana, Inc. (CN605599364) has submitted an application for an amendment to Permit Number 9476. The TCI Texarkana plant (RN100215250) is a secondary aluminum processing facility located at 300 Alumax Road, Nash, Bowie County.

This amendment will authorize the construction and operation of a second Casthouse. TCI Texarkana, Inc. has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the current amount allowed, the amount to be added or removed, and the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Total Amount Allowed (tons per year)
Organic Compounds	136.16
Particulate Matter	42.03
Oxides of Nitrogen	185.74
Carbon Monoxide	127.54
Sulfur Dioxide	1.17
Hazardous Air Pollutants	37.72

The new and/or modified facilities will be controlled by a high efficiency baghouse system.
