

Biography: Brandon Marsh, P.E.
Air Permits Division
Texas Commission on Environmental Quality

Current Position

Brandon is a technical specialist in the New Source Review Chemical Section. His primary responsibilities include reviewing New Source Review permit applications.

Prior Experience and Education

Brandon received his Bachelor of Science degree in Chemical Engineering from the University of Houston. Brandon joined the New Source Review Chemical Section in 2021 as a permit reviewer and then served as a team leader for nearly two years. Brandon joined TCEQ in November 2016 as a professional engineer and reviewer in the Operating Permits Section.

Before joining the TCEQ in November 2016, Brandon spent 10 years as a triathlon coach and professional triathlete, racing internationally. Prior to his career as a professional triathlete and coach, Brandon worked for URS/Radian Corporation as a consulting engineer. He prepared air permit applications for New Source Review and Title V and worked on air pollution control projects focused on sulfur dioxide and mercury removal from coal-fired power plants.

Brandon has more than 20 years of experience in the environmental field, primarily in air permitting. He is a licensed professional engineer in the state of Texas.
