

Biography: Rachel Melton
Air Quality Division
Texas Commission on Environmental Quality

Current Position

Rachel is a project manager on the State Implementation Plan Team in the Air Quality Planning Section. She is responsible for reviewing and revising the Texas State Implementation Plan. She oversees ozone planning for the Dallas-Fort Worth and Houston-Galveston-Brazoria areas and serves as a backup for the state's particulate matter designations.

Prior Experience and Education

Rachel has a bachelor's degree in Biology with a minor in Geographic Information Systems from The University of Texas at Arlington and a graduate certificate in Communication Skills for Professionals from the University of Texas at Austin.

Rachel started her career at the Texas Commission on Environmental Quality in 2012 on the Mobile Source Programs Team, where she developed on-road mobile emissions inventories. She then moved to the Air Permits Division and worked as an air dispersion modeler for nearly 10 years. In October 2023, she joined the Air Quality Planning Section in her current role as a project manager.
