

Biography: Leland Moore
Water Quality Division
Texas Commission on Environmental Quality

Current Position

Leland has been with the TCEQ for over seven years as a contractor with the University of Texas at Arlington. As a permit writer he performs technical reviews of municipal stormwater management programs and provides regulatory guidance interpreting industrial, construction and municipal program requirements for individual and general stormwater discharge permits under the Texas Pollution Discharge Elimination System (TPDES).

Prior Experience and Education

Leland graduated from the University of Texas Austin with a Bachelor of Science and Arts in Biological Studies and started with the TCEQ in July of 2018. He has held positions in both the Water Availability and Water Quality Divisions and has been a member of the Stormwater Team since January of 2022.
