

Biography: Mara Guerin

Water Quality Division
Texas Commission on Environmental Quality

Current Position

Mara Guerin joined the TCEQ as a dissolved oxygen Modeling and Assessment Specialist for the Water Quality Assessment Team in the Water Quality Assessment Team in August 2024.

Prior Experience and Education

Mara earned her Bachelor of Science degree Ecological Management and Restoration from the University of California, Davis in 2024.

Before working with TCEQ, Mara had a wide range of internships and seasonal positions, in roles from habitat restoration technician to environmental engineer to lab assistant. Mara is currently working on obtaining certificates through the Texas Master Naturalist program and the Texas Stream Team.
