3. Add the program, Water Quality Individual Permit (EPR_WQIP)
4. Providing the program access type – read, edit, preparer, and sign

ePermits Water Quality Individual Permit Program (EPR_WQIP)

The screenshot shows the TCEQ ePermits Water Quality Individual Permits (EPR_WQIP) application page. The page header includes the TCEQ logo and name, navigation links for Help, Contact Us, and Logout, and tabs for Activities and STEERS Home. The page title is "Water Quality Individual Permits" and the time is 19:18. A red warning message states: "Do not use web browser back button when filling out application." The main content area is titled "Select One Application Type:" and contains a section for "Individual Permit" with two radio button options: "Create a New Domestic or Industrial Individual Permit Application" and "Renew or Amend an existing Domestic or Industrial Individual Permit Authorization". At the bottom of the form are two buttons: "Activities" and "Next".

- Cancellations
- Transfers
- Billing Updates
- Facility Updates via CDF

Coming Next Year

Also coming in April 2024 – Electronic Core Data Form (eCDF), for updating information on existing CNs or RNs in Central Registry.

New RN and CNs will require the paper Core Data Form

The screenshot shows the STEERS web application interface. At the top right, there are links for "Help>>", "Contact Us >>", and "Logout>>". Below these are two buttons: "Activities" and "STEERS Home". A dark green header bar contains the text "Electronic Core Data Form". In the center, there is a progress indicator with six steps: 1 (Create), 2 (Fill Out), 3 (Sign), 4 (Pay), 5 (Submit), and 6 (Finish). Below the progress indicator, the text "Core Data Form" is displayed, followed by a radio button labeled "Electronic Core Data Form". At the bottom, there are two buttons: "Activities" and "Next". The STEERS logo is visible in the top right corner of the main content area.
