August 1, 2012

Scale 1:266,443
 Texas Statewide Mapping System (TSMS) Projection

Special Flood Hazard Areas Inundated by 100-Year Flood

The Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM) data depicted on this map was georeferenced using 1998 RF3 river line data (1:100,000) at a 1:24,000 scale denominator from scanned FIRM maps. The FIRM data on the georeferenced maps were also heads-up digitized at a scale denominator of 1:24,000. This data is not complete (Palo Pinto and Parker Co.) in the areas furthest from the Brazos River.

The FIRM data does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas. The community map repository should be consulted for possible updated flood hazard information. This map should not be used for property purchase or construction purposes.

Zone A - No base flood elevations determined
 Zone AE - Base flood elevations determined
 Zone X - Areas determined to be outside 500-year flood plain (all other areas not depicted as Zones A or AE)

- Legend**
- Interstate Highway
 - US Highway
 - State Highway
 - FM Road
 - Lake / Water Body
 - Perennial Stream
 - Minor Stream
 - River Basin
 - County Boundary
 - City Boundary
 - Watershed
 - 200 Feet Buffer
 - 1500 Feet Buffer
 - 5280 Feet Buffer
- Special Flood Hazard Areas Inundated by 100-Year Flood**
- Zone A - No base flood elevation determined
 - Zone AE - Base flood elevation determined

Source: The counties and major streams are U.S. Census Bureau 1992 TIGER/Line data (1:100,000). The minor streams are 1998 USEPA/OW River Reach File (RF3 - uncalibrated alpha version) from the U.S. EPA/Office of Water (1:100,000). The highways were purchased from GDT (Geographic Data Technology, Inc.) with data ranging from 1990-1998 from the U.S. Census Bureau (1:100,000). The FM roads are 1996 TxDot data (1:30,000). The city jurisdictions are TXDOT 2003 data. The watersheds are 1:24,000 data based on the USGS topographic maps. The basins are USGS data (1:500,000).
