

CREATING/AFFILIATING YOUR TCEQ NUMBERS USING THE TIER II CORE DATA APPLICATION

This is how you use the Tier II Core Data application to create and/or affiliate TCEQ numbers for your facilities or sites, to your company or organization to your Tier II account

This guide will take you through the following steps:

Step 1 - Log into the STEERS Portal:.....	2
Step 2 - Select the Tier II Core Data (EPR Tier II) program link to create a new application.....	3
Step 3 - Create a Tier II Core Data Application.....	4
Step 4 - Enter the Site Information to create or affiliate the Regulated Entity (RN).....	5
Step 5 - Enter in the company information to create or affiliate the Customer Number (CN).....	9
Step 6 - Affiliate or create your Tier II “TXT2”	11
Step 7 - Sign and submit your Tier II Core Data Application.....	12
Copy of Record Example.....	17
Approval Letter Example	18
Email confirmation examples and archiving your STEERS Account Record.....	19

NOTES:

STEERS Tier II Core Data Program will allow you to create and/or link TCEQ numbers for the Tier II Program. The TCEQ has three types of numbers that are required to file a Tier II Report: 1) the facility or site is assigned a number by the address that is called the Regulated Entity Number (RN, e.g., RN123456789); 2) the company/organization is assigned a number that is called the Customer Number (CN, e.g., CN123456789); and the program ID number, for the Tier II Program it is called the TXT2 number (e.g., TXT2 12345). If you have reported before in the online system and do not have any new facilities, then you do not need this application.

- If the company has multiple sites (facilities) to report in Tier II, then there will need to be a separate RN (ex: RN123456789) created for each Tier II Facility Location.
- Each company/organization needs a TCEQ Customer Number (CN). The CN is usually linked to an active Texas Secretary of State Filing Number
- Every Customer CN Account (CN123456789) is assigned to **only one** Tier II Chemical Reporting Program ID (TXT2#123456) to use in Tier II Reporting.
- The STEERS Account is tied to the Individual, **not** the Company/Organization. Therefore, everyone operating on behalf of a Company/Organization must have their own individual STEERS Account.
- If you cannot locate your RN, CN, or TXT2 number you can reach the Tier II Reporting Program Staff by submitting a [Customer Help Form](#)

Step 1 - Log into the STEERS Portal:

Step 3 - Create a Tier II Core Data Application

- Select the “Fill Out” button to create a new application for creating or affiliating RN, CN and/or TXT2 numbers.

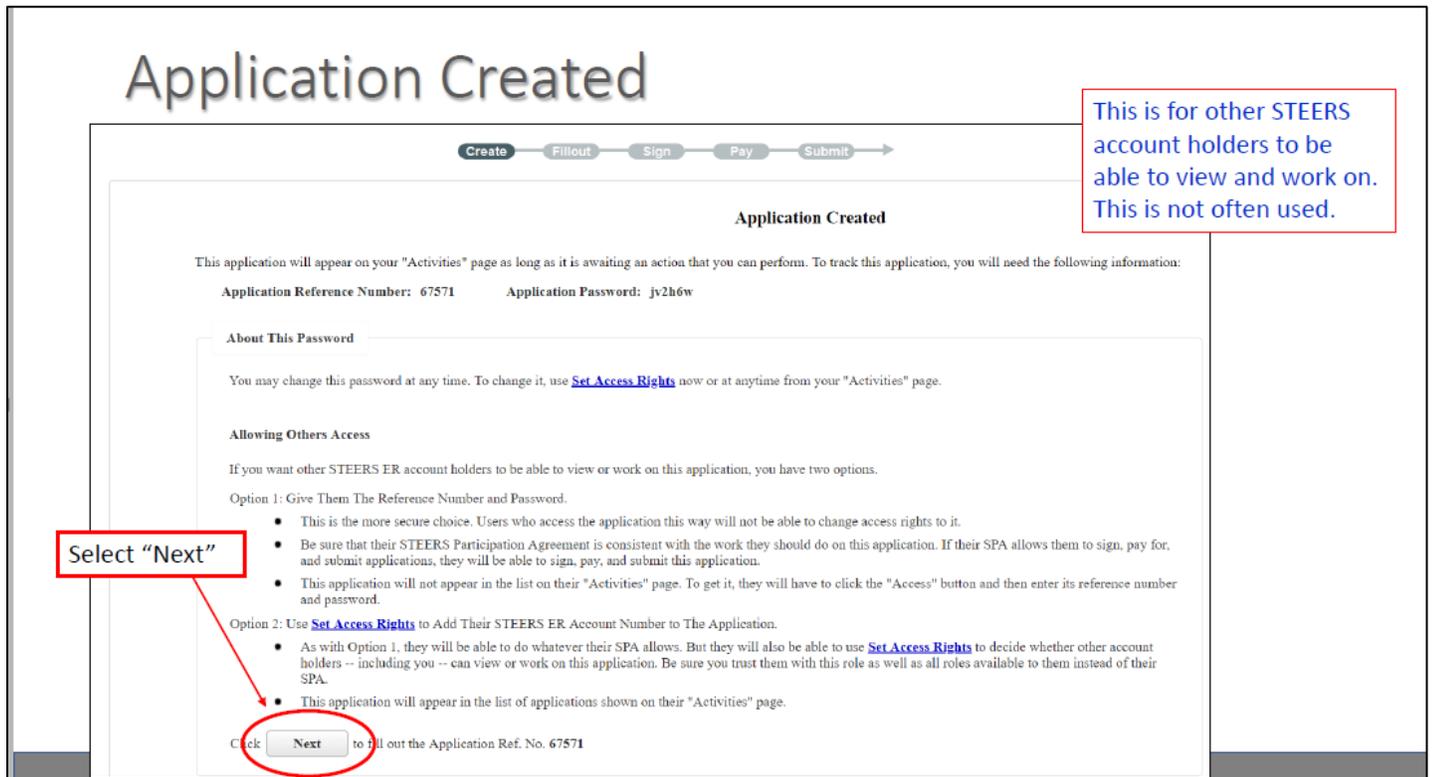

- The webpage advances to the Tier II Core Data Create stage page.
- Select the radio button to create a new Tier II Core Data Application, then select Next:

- The webpage advances to the Tier II Core Data Create- Application Created page
- You may want to retain the Application Reference Number (for this example 67571) and the Application Password (for this example jv2h6w).
 - Take note of both as you might need them to access the application in the future. The reference number is used obtain assistance from TCEQ, and it allows someone in a sign access role to sign and submit the application for someone in a preparer or edit access role.

- Select “Next” to fill out the application

Step 4 - Enter the Site Information to create or affiliate the Regulated Entity (RN).

- Complete one of the following options:
 1. Option 1: If the site to be added as your new Regulated Entity already has an RN (Regulated Entity Number ex: RN123456789), you will use that RN. The RN always stays with the site regardless of ownership.
 2. Option 2: If there is no RN for the site but there is a known Authorization Number for the site, you will utilize that Authorization Number for the site.
 3. Option 3: If there is neither an RN or Authorization Number, then enter the sites known Site Location Name and its correct Physical Address to search for an existing RN in the STEERS Core Data System of Records.
- Then select the “Next” button
