## Electric Vehicle Battery Recycling Advisory Group

### Advisory Group Participant Application Form

The Texas Commission on Environmental Quality (TCEQ) is seeking input and recommendations to encourage the reuse, recovery, and recycling of lithium-ion and other propulsion batteries used in electric vehicles. The advisory group will create a report to the Office of the Governor summarizing key recommendations that examines:

- Methods to collect and reuse or recycle 100% (or as close as possible) of Texas' electric vehicle batteries at their end-of-life in an environmentally safe and cost-effective manner.
- Ways to reuse electric vehicle batteries as possible energy storage systems.
- Best options for recycling electric vehicle batteries.
- Best practices to reuse recycled precious metals or other materials as feedstock for new batteries or other products.

The TCEQ is looking for input from the various industry, trade groups, or associations listed under Section 3 below and will be using an application selection process. To nominate yourself or another individual, please complete the application questions below.

At least one meeting will be held at TCEQ's main campus in Austin, TX. Additional meetings may be required.
