Document Notes:

- "Revenue" refers to revenue as reported by the TCEQ Financial Administration Division. This is actual revenue received by the agency. Revenue percentages described in the revenue tables below refer to the percentage of revenue collected for that fee type and not a percentage of overall agency revenue.
- "Fee" or "Fees" refers to the calculated fee amounts based on waste volumes reported to the agency. Fee amounts do not constitute actual payments or revenue.
- Unless otherwise stated, all calculated fees are based on the pre-2022 fee schedules.
- The application, facility, and management data are from FY 2017 to FY 2021. The agency's fiscal year (FY) runs from September to August. For example, FY 2021 started Sept. 1, 2020 and ended August 31, 2021.
- Due to the reporting and billing procedures for the Generation Fee, the reported data is from calendar year (CY) 2015 to CY 2019. This correspondence to revenue collected in FY 2017 to FY 2021, however, the data is displayed by calendar year to more accurately describe when the waste was generated rather than when the revenue was collected.

Generation Fee

Background

The Generation Fee is an annual fee charged to each generator of hazardous waste and/or industrial Class 1 waste. The fee is based on the amount (tons) of hazardous waste and industrial Class 1 waste reported to the TCEQ in the previous calendar year. Generators who generate both hazardous and Class 1 industrial waste must pay both fees, up to the maximums. All revenue is deposited into Fund 549.

Statute: [THSC §361.134](#)

Rules: [30 TAC §335.323](#)

Minimum:

\$50, except small quantity generators generating less than one ton of waste. Additionally, generators of Class 1 industrial waste, between 1 and 50 tons are charged \$44 due to the phased in approach of the fee increase.

Maximum:

\$50,000 – Hazardous Waste

\$10,000 – Class 1 Waste

Statute Exemptions:

- Certain wastewaters
- Waste from remedial actions
- Recycling activities

Fee Schedules

Table 1 – Generation Fee – Pre-2022 Fee Schedule

Hazardous Waste		Class 1 Waste	
Waste Reported (Tons)	Annual Fee	Waste Reported (Tons)	Annual Fee
Less than 1 ton	No charge	Less than 1 ton	No charge
From 1 – 50 tons	\$100	From 1 – 100 tons	\$50
Greater than 50 tons	\$2 per ton Up to \$50,000	Greater than 100 tons	\$0.50 per ton Up to \$10,000

Table 2 – Generation Fee – Current Rates

Hazardous Waste		Class 1 Waste

Fee Payers

Notes:

- One fee payer (entity) may generate and pay fees for both hazardous and Class 1 wastes.
- Fee payer groupings explanation:
 - No charge - entities generating less than 1 ton of waste and not charged a fee
 - Flat rate - entities in the middle category and charged a flat rate fee on the amount of waste generated (i.e., not a per ton fee)
 - Per ton rate - entities charged a fee based on the per ton generation rate, but are below the fee maximum
 - Max fee - entities that paid the maximum fee for the waste type

Management Fee

Background

The Management Fee is a monthly fee charged to each industrial and hazardous waste treatment, storage, and disposal facility. The fee is based on the amount (tons) of hazardous waste and Class 1 waste managed at the facility each month. The fee is self-reported and self-paid.

Twenty five percent of the management fees collected from commercial facilities are credited to the county in which the commercial facility is located (THSC §361.136(l)).

Statute: [THSC §361.136](#)

Rules: [30 TAC §335.325](#)

Minimum:

No minimum. However, a facility which owes less than \$500 a calendar month is not required to pay monthly but must file a report and pay fees quarterly (30 TAC §335.328(c)).

Maximum:

No maximum per facility, however, the agency may only collect \$16 million in revenue after the distribution to counties with commercial facilities (THSC §361.133(d)).

Statute Exemptions:

- NPDES/TPDES discharge
- Storage for less than 90 days
- Waste disposed of at a municipal solid waste landfill (except Class 1 waste)
- Remedial activities occurring in Texas

Important Conditions:

- Fee established for commercial Class 1 disposal shall not exceed 20% of the fee for commercial hazardous waste disposal by the same disposition method (THSC 361.136(b)).
- Fee for in-state wastes that are landfilled may not exceed \$40 per ton (THSC §361.136(d)).
- The in state and out of state (imported) fees must be the same for storage, processing, incineration, and disposal of hazardous waste fuels (THSC §361.136(e)).
- Out of state wastes shall be charged the instate disposal fee, plus an additional increment established by the agency that takes into account the added costs of regulating interstate transport, similar fees imposed in the generator's state of origin, and contributions of generators in the state to support the state's IHW program, and regulations in THSC §361.139 (THSC §361.136(j)).

Facility Fee

Background

The Facility Fee is an annual fee charged to each active permitted industrial and hazardous waste facility. This fee is based on the cumulative total of fees per authorized waste management unit at a facility on September 1 for the current fiscal year. The fee has a minimum and maximum for each class 1 and hazardous waste facilities. Facilities with both class 1 and hazardous waste management units must pay fees up to the maximum for both categories.

Statute: [THSC §361.135](#)

Rules: [30 TAC §335.324](#)

Minimum:

\$2,500 - Hazardous Waste

\$500 - Class 1 Waste

Maximum:

\$25,000 - Hazardous Waste

\$5,000 - Class 1 Waste

Fee Schedules

Table 27 - Facility Fee - Current Schedule¹

Type of Management Unit	Class 1 Waste	Hazardous Waste
Closed Disposal Unit (Per unit)	\$250	\$2,500
Injection Well (Per well)	\$1,000	\$10,000
Landfill (Per surface acre)	\$500	\$5,000
Land Treatment (Per surface acre)	\$400	\$4,000
Other Unit (Per unit)	\$250	\$2,500
Storage/Processing (Tanks or Containers)	\$250/unit	\$0.02/gallon
Surface Impoundment (Per surface acre)	\$500	\$5,000
Waste Pile (Per surface acre)	\$400	\$4,000

Application Fee

Background

The TCEQ charges an application fee for most industrial and hazardous waste applications submitted for review and approval.

Statute: [THSC §361.137](#)

Rules: [30 TAC §305.53](#)

Minimum:

\$2,000 - New or major amendments, renewals

Maximum:

\$50,000 - New or major amendments or modifications, renewals

Fee Schedule

Table 31 - Application Fee - Current Schedule

Fee Description	Fee Amount
Site Evaluation	\$100 per acre; up to 300 acres
Process Analysis	\$1,000
Facility Unit Analysis	\$500 per unit
Management/Facility Analysis	\$500
Notice Fee	\$50
Renewal Fee	\$15
