Description of Update (for Class 3 Modifications and Amendments only)

List and explain any changes this modification or amendment would make to the two sections above—**Waste Management Information** and **Pollution Control Methods**.

This Class 3 permit modification application requests authorization to add a new thermal desorption unit (TDU #2). The application includes engineering designs, closure cost estimates, and updated facility management plans to account for this change, including updates to inspection and contingency plans. These measures will prevent, and clean up as needed, spills, leaks, and releases. Air emissions will be prevented or minimized using existing control systems. Operations will comply with state and federal requirements.
