Description of Update *(for Class 3 Modifications and Amendments only)*

List and explain any changes this modification or amendment would make to the two sections above—**Waste Management Information** and **Pollution Control Methods**.

This application is for a permit renewal. Minor amendments are proposed to reformat the application to meet TCEQ's current administrative requirements. The application addresses a variety of topics including engineering designs, closure cost estimates, and facility management plans such as inspection and contingency plans. These measures will prevent, and clean up as needed, spills, leaks, and releases. Air emissions will be prevented or minimized using existing control systems. Operations will comply with state and federal requirements.
