**Description of Update** (for Class 3 Modifications and Amendments only)

List and explain any changes this modification or amendment would make to the two sections above—**Waste Management Information** and **Pollution Control Methods**.

There are no changes to Facility operations regarding waste handling, storage, process/treatment, or disposal with this Permit Renewal application.

The frequency of groundwater monitoring is proposed to change from semi-annual to annual based on stability of the groundwater contaminant area and containment on the Facility.
