Description of Update *(for Class 3 Modifications and Amendments only)*

List and explain any changes this modification or amendment would make to the two sections above—**Waste Management Information** and **Pollution Control Methods**.

The Former Ambient Process Area (FAPA) had been in Corrective Action, but TCEQ has concurred that No Further Action is required. As a result, the FAPA needs to be removed from the Compliance Plan. There are no changes in how waste is managed at the facility as a result of this amendment request.
