Description of Update *(for Class 3 Modifications and Amendments only)*

List and explain any changes this modification or amendment would make to the two sections above—**Waste Management Information** and **Pollution Control Methods**.

Deer Park Refining LP (DPRLP) operated the Deer Park Refinery as a joint owner with Shell USA, Inc. under existing Permit No. 50099. With the sale of the refinery to DPRLP, existing Permit No. 50099 is being split between the two parties, DPRLP and Shell USA, Inc. DPRLP is submitting this permit application to separate the refining operations in existing Permit No. 50099 pertaining to DPRLP from the chemical operations pertaining to Shell USA, Inc in order to issue a new Permit No. 50422 to DPRLP. This application also separates the Compliance Plan corrective action and compliance monitoring program units applicable to the refinery from the chemical plant. There are no changes to waste management information or pollution control methods.
